

Garage Door Weatherstrips

Trouble-Free Protection that Keeps the Elements Out.

StanStrip® is the original weatherstrip for the bottom of wood and steel overhead garage doors and is used on tens of thousands of overhead garage doors throughout North America. Choose from either our Dense or Sponge EPDM Rubber Weatherstrips to keep the elements out and provide a shock-absorbing seal, cushioning the impact of a closing garage door. StanPro Garage Door Thresholds also keep the weather and elements out and garage interiors cleaner.

StanStrip®, Unicell and our Garage Door Thresholds can be shipped immediately from stock and can provide customers with the most effective, trouble-free weatherstripping and thresholds available today.

Applications:

- > Wood garage doors
- > Steel garage doors
- > Garage floors
- > Truck beds

Key Markets:

- > Commercial or Residential Construction
- > Commercial or Residential Garage Door Installation

Benefits:

- > Quick and easy to install
- > Keeps out weather, dirt and pests
- > Stays soft even during temperature extremes
- > Tough exterior and long-lasting material reduce customer complaints
- > Vast inventory for immediate shipment
- > Provides an efficient seal against the elements and pests
- > Stays where it's installed and won't crack, move or shatter

Available Materials:

- > StanStrip® – EPDM, Dense Rubber Compound
- > Unicell – Premium Quality Astragal Sponge Rubber
- > Garage Door Threshold – EPDM, Dense Rubber Compound*

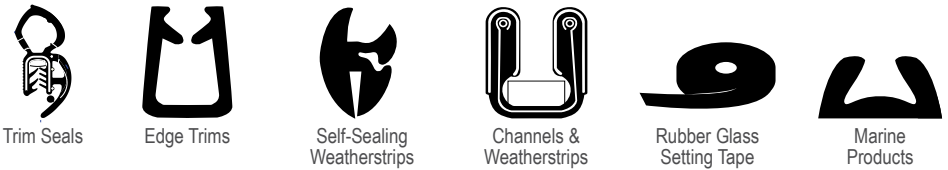

* Needs to be glued to garage floor using a heavy-duty adhesive.
