

## ■ Rubber Glass Setting Tape

### It's Easy on Glass and Tough on the Elements.

SealStrip® Glass Setting Tape is strong, flexible and easy to use for virtually any stationary glass applications. Just fold it over the glass edge, insert into a metal frame or channel, and then trim it to size. SealStrip® seals against dirt and weather, and provides insulation against sound and vibration. It's preferred for vent work because it's flexible enough for tight corners, yet it won't stretch out of shape. And it's thin enough that it won't crack or break glass during installation.

#### Applications:

- > Window glass
- > Auto safety glass

#### Key Markets:

- > Automotive Glass Installation/Repair
- > Window Installation/Repair

#### Benefits:

- > Clings to glass during application; holds tight when glass is set
- > Peels off roll easily without tearing
- > Applies easily without oil
- > For special applications – absorbs oil and swells to ensure extra-strong grip
- > Age and moisture resistant
- > Specially compounded rubber won't bleed onto glass

#### Available Materials:

- > 100% Rubber Compound

## StanPro – Always the Right Fit

Having trouble finding the right solution for your application? Call StanPro! We can help you find the right fit. In addition to our Rubber Glass Setting Tape, we carry more than a million feet of products in inventory for immediate shipment, including:

Trim Seals
