

Trim Seals

The Ultimate Seal Performance for Virtually Any Application.

StanPro Push-On Trim Seals are one of the best ways to weatherstrip or trim just about anything that needs a tight seal with a finished look. Our Push-On products are the trim seals of choice for automotive, marine and transportation, but are ideal for any application that needs a solid, reliable seal, including toolboxes, closet doors, boat hatches, storage containers and more. The flexible wire and segmented steel cores provide the strongest and most resilient gripping power in the industry. Push-On Trim Seals are also easy to use and install without gluing; just push them on over any raw edge or flange to lock them in place.

Applications:

Push-On Trim Seals can be used on virtually any application with an edge or flange made with the following materials:

- > Metal
- > Fiberglass
- > Plastic
- > Plywood
- > Glass

Key Markets:

- > Automotive
- > Transportation
- > Construction
- > Marine
- > Manufacturing and Maintenance
- > Heavy Equipment
- > Commercial HVAC Systems

Benefits:

- > Easy to apply
- > Consistent, high-quality materials
- > Resilient gripping power
- > Flexible cores bend, but retain shape
- > Weather and water resistant
- > Solid, rattle-free professional finish

Available Materials:

Push-On Trim Seals are available in a wide selection of profiles and are produced using a variety of durable materials, including:

- > Dual Durometer EPDM Sponge and Rubber Extrusions with Flexible Wire Core
- > Dual Durometer EPDM Rubber Extrusions with Flexible Segmented Core
- > Vinyl and Sponge Rubber with Flexible Segmented Steel Core

StanPro – Always the Right Fit

Having trouble finding the right solution for your application? Call StanPro! We can help you find the right fit. In addition to our Trim Seals, we carry more than a million feet of products in inventory for immediate shipment, including:

Edge Trims

Self-Sealing Weatherstrips

Channels & Weatherstrips
